

# EE 491 Weekly Report    MAY1627    Week 2 (9/8/15-9/14/15)

---

**Advisors: Randy Geiger    Client: Randy Geiger**

**Members (roles): Kelly McConville, Xiayang Sun, Yinkun Peng**

**Project Title: Smart fuel tank sensor**

---

## Weekly Summary

During the second week, we didn't meet with our advisor because we couldn't get in touch with him for the whole week. What we did was continuing to do researches by ourselves and tried to find some ideas.

## Meeting notes:

No meeting.

### 9/4    Group Meeting with Advisors

**Duration:** *min*            **Members Present:**

**Purpose and Goals:**

**Achievements:**

## Pending issues

1. Doing researches for similar tank sensor patterns.
2. Find a plan to start the project

## Plans for next week

Doing researches first and take down ideas whenever we find some thoughts. Also, Figuring out an actual plan to start the project

## Individual Contributions(this week)

Kelly: Set meeting schedules and doing researches

Xiayang: Doing researches

Yinkun: Doing researches

## Total contributions for the project

Just started the project and found some researches may help
